# Answers

What is a weather?

Answer: A weather is the state of the atmosphere at a particular place and time.

What are the four seasons?

Answer: The four seasons are spring, summer, autumn, and winter.

What is the temperature today?

Answer: The temperature today is the measurement of how hot or cold it is.

What is a cloud?

Answer: A cloud is a visible mass of condensed water vapor floating in the atmosphere.

What is a raindrop?

Answer: A raindrop is a drop of rain that falls from a cloud.

What is a tornado?

Answer: A tornado is a violent and destructive rotating column of air that is in contact with both the ground and the cloud.

What is a thunderstorm?

Answer: A thunderstorm is a storm with thunder and lightning, typically also with heavy rain or hail.

What is a hurricane?

Answer: A hurricane is a large tropical cyclone with strong winds and heavy rain.

What is snow?

Answer: Snow is precipitation in the form of ice crystals, mainly of intricately branched, hexagonal crystals.

What is a rainbow?

Answer: A rainbow is a meteorological phenomenon that is caused by reflection, refraction, and dispersion of light in water droplets.
